

EXPERIENCE

Megazone Cloud | Seoul, South Korea | Data & AI/ML SA, Data Team

Apr 21 - Present

- Led the migration of 6,000 Tableau and Oracle BI dashboards(Sales, Profit, VOC) to Amazon QuickSight for Korean Air, developing and documenting 16 comprehensive step-by-step migration manuals and 130 troubleshooting solutions to ensure seamless integration and user adoption
- Redesigned Daedong's data infrastructure, Korea's No.1 AgTech company, by building a Snowflake-based Data Lake and ETL pipelines , improving scalability, efficiency and security
- Implemented a seamlessly integrated Cloud Big Data platform using AWS(Glue, Step Functions, Lambda) and Snowflake(Streamlit) to build Data Lake, Data Mart, data pipelines and BI dashboard(Hyundai)
- Migrated Nexon Korea's Big Data platform from BigQuery to Snowflake: custom RBAC design, database replication and end-to-end technical troubleshooting support
- Applied SQL-Augmented LLM to produce daily cybersecurity reports(Dunamu, Amazon Bedrock)
- Optimized production planning using demand forecasting models(XGBoost, Acc.98%)
- Implemented LTE quality classifier for Top Tier Ship Builder(Amazon SageMaker Canvas, Acc. 98%)
- Built scalp diagnosis model for shampoo recommendation(ResNet, Acc. 75%)
 - Awarded MVP of the Quarter due to the creation of strong client bonds
 - Transformed loss function to boost training speed and automated image augmentation
- Re-designed customer clustering system for Johnson & Johnson, enabling personalized advertisement (PCA, Clustering Algorithm)
- Developed golf club recommendation models for Titleist(XGBoost, Acc. 80%)
- Led Posco's(Top Tier Steel Producer) risk perception ML project(Object Detection) and provided AWS MLOps service guidance for diverse ML use cases
- Advised Toyota to modify its target customer group, based on insights from a hypothesis test
- Created multiple BI dashboards to efficiently manage e-commerce platform
- Spearheaded developing monthly market & sales analysis dashboard for Volkswagen and social media sentiment analysis dashboard for Kellogg(NLP)
- Accomplished impactful public speeches on AI/ML offerings & Hands-On Labs
 - Resulted in 10+ new ML opportunities e.g. Posco, Samsung Life Insurance, Hyundai Infracore, Volkswagen at AWS Enterprise Boost Program 2022
 - Discovered ML opportunities e.g. Hanwha Ocean(Top Tier Ship Builder) at AWS Cloud Seminar for Busan-based clients in manufacturing, ship market and heavy industries
 - Created 10+ new sales opportunities at AWS New AI/ML Feature Seminar

- [Delivered Amazon Sagemaker HOL at GC MOGAM Institute for Biomedical Research](#)(1 more contract)
- Increased ML engagement by delivering Partner-Led DataLab for Amazon Sagemaker
- Presented a comprehensive LLM hands-on session on integrating Snowflake with AWS over 400 attendees
- Attended several AWS overseas conferences (Re:Invent 2021, Re:MARS 2022, and Re:Invent 2022, AWS Hong Kong GPT Training), enhancing technical skills and delivering new ML-related features to clients
- Re:Invent 2021 Re:Cap: [Youtube](#), [Blog](#)
- Sought global opportunities through ML offering meeting with AWS HongKong
- [Educated in-house presales/sales colleagues on AI/ML fundamentals and offerings](#)
- Successfully completed AWS Security Lake Service Partner Certification to expand the business area

Baruch College, City University of New York | New York, NY | Research Assistant **Jan 20 - May 21**

- [Formulated ML model to detect nucleus in cell](#) (Random Forest, Acc. 98.8%)
- [Developed ML model to diagnose Parkinson disease from acoustic features](#) (Ridge, Acc. 98%)
- https://github.com/espseongsm/list_of_projects

DL E&C | Seoul, South Korea | Cost Analyst, Project Management Engineer **May 12 - Jun 16**

- Directed \$300+ million piping costs for power plant (predicting prices | 10% cost reduction)
- Led data lake project to redesign cost estimation system (15% time saving)

Hyosung | Seoul, South Korea | Project Management Engineer **Jan 10 - Apr 12**

- Managed procurement schedules and invoices for mechanical equipments

EDUCATION

Baruch College, City University of New York | New York | MS in Statistics, GPA: 3.96 **Aug 18 - May 20**

- Paul Chook Fellowship (Zicklin School of Business) – high scholastic performance
- Coursework: Machine Learning, Statistical Learning, Big Data Technologies, Multivariate Statistical Analysis, Probability, Statistical Inference, Sampling, Regression, Linear Algebra

Korea Aerospace University | South Korea | BEng in Aerospace Engineering **Mar 01 - Feb 05**

SKILLS

Certification: AWS Machine Learning Specialty, AWS Data Analytics Specialty, AWS Certified AI Practitioner, Snowflake SnowPro Core

Community: [Snowflake Data Superhero](#)

Languages/Frameworks: Python, SQL, R, PyTorch, HuggingFace

Leadership Experience: Tactical Control Officer, First Lieutenant, Republic of Korea Air Force
